Thursday, Friday & Saturday  
June 19 - June 21, 2008  
Sheraton Centre Montreal

1201 Boulevard Rene-Levesque West  
Montreal Quebec Canada H3B 2L7

# Join hundreds of delegates from over 60 countries

An outstanding opportunity for one-on-one networking  
with the world's top Pediatric and Congenital Heart Surgeons

*The World Society for Pediatric and Congenital Heart Surgery is the largest organization representing Pediatric Heart Surgeons and Cardiologists worldwide.*

*Our mission is to ensure that every child born anywhere in the world with a congenital heart defect should have access and the right to appropriate medical and surgical care.*

At the 2008 World Summit on Pediatric and Congenital Heart Surgery Services, Education and Cardiac Care in Children and Adults with Congenital Heart Disease, delegates will experience an exceptional educational program. Attendees are the decision makers with respect to purchasing of equipment and services in their institutions and they find their interaction with exhibitors a valuable part of their conference experience.

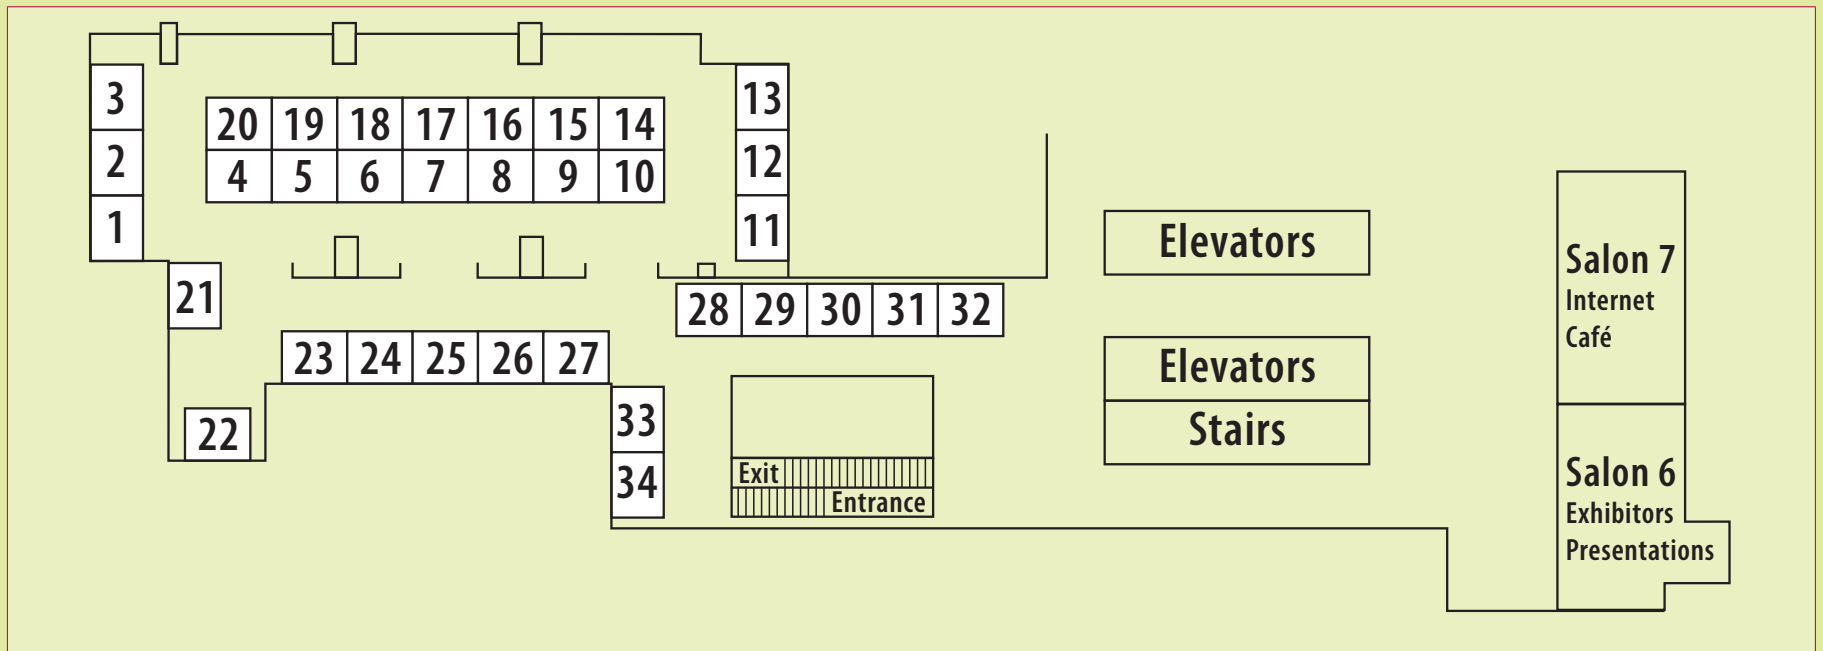

To facilitate interaction with both attendees and exhibitors, the World Society has implemented opportunities for networking: coffee breaks, the Opening Reception, the Gala Dinner and more. We are open to your ideas to make the 2008 World Summit beneficial to your organization.
